

✚ **Keynote address:**

Presenter: *Irene Marron-Tarrazzi, DDS, MS; First Vice President, American Dental Association*

Dr. Irene Marron-Tarrazzi was born in Venezuela and studied dentistry at the Universidad Central de Venezuela. She completed her post-doctoral training at the University of North Carolina at Chapel Hill where she earned her Certificate in Periodontology and Master of Science degree. Dr. Marron-Tarrazzi earned her dental degree from Nova Southeastern University. Dr. Marron-Tarrazzi is an adjunct faculty member at Nova Southeastern University and the University of Florida Hialeah Dental Clinic. She owns a private practice in Miami, Florida.

✚ **TABLE #1: Practical Tips for Navigating Legal Operations in Daily Practice**

Presenter: *Jennifer Kirschenbaum, Esq.; Managing Partner, Kirschenbaum & Kirschenbaum, PC, Healthcare Department*

During our time we will discuss how to best manage staff in hiring and disciplinary action, interactions with patients and dealing with issues as they arise, HIPAA and regulatory compliance concerns, tackling our electronic compliance.

✚ **TABLE #2: Laser Periodontal Therapy**

Presenter: *Erica Kaplan, DDS; Board Certified Periodontist, Private Practice, Pt Jeff St, Dental Director, St. Chrles Hosp.*

An overview of the lasers used to treat periodontal disease and periimplantitis. The lecture will focus on the LANAP protocol as well as the LAPIP protocol with clinical examples demonstrating the effectiveness of the treatment.

✚ **TABLE #3: The Oral / Systemic Health Connection**

Presenter: *Fabiola Milord, DDS, MPH; Clinical Instructor, Dept. of Cariology, NYU Coll. of Dentistry*

The goal of this session is to reiterate the importance of oral and dental health as it relates to systemic and general health. Points of discussion include: explaining the various interplays between oral health disease states and their corresponding systemic health issues; and exploring what the future holds in the diagnosis and management of oral and general health

✚ **TABLE #4: Pediatric Care by Age: Year by Year Instructions and Advice**

Presenter: *Keren Etzion, DDS; Pediatric Dentist, Private Practice, NYC*

For anyone who sees even the occasional pediatric patient, just knowing the basics may not be enough to get you through an exam. This talk will cover the need-to-know (and do) points when a pediatric patient walks into your operatory for an exam. The information will be given in a simple age-focused format that prioritizes the changes you need to make as you follow the dental, psychosocial and dexteral development of the patient.

✚ **TABLE #5: Evaluation & Management of Impacted Teeth & Case Review**

Presenter: *Sharon Pollick, DMD; Board Certified OMFS; Chief of Dentistry, Brookhaven Hosp.; Priv Prac, Patchogue*

Review the standards and approach to the management of impacted teeth. *Case review with participant interaction.*

✚ **TABLE #6: Endodontic Standard of Care**

Presenter: *Doreen Toskos, DMD; Endodontist; Private Practice, Jericho & Smithtown*

Clinicians practicing endodontics are held to the same standard of care as specialists. This standard is defined by current advances, research and evidence. Current advancements, including microsurgical endodontics, CBCT imaging and methods of instrumentation will be discussed. The impact of these advancements on patient care will be outlined.

✚ **TABLE #7: Silver Diamine Fluoride: Clinical Applications in Pediatric Dentistry**

Presenter: *Mahnaz Khan, DDS; Board Certified Pediatric Dentist; Private Practice, Westbury*

Silver Diamine Fluoride has recently received major media coverage as an alternative to traditional dental fillings in the treatment of dental caries in children. This discussion will give a background on what SDF is and its appropriate use in the management of dental caries in the pediatric population. We will discuss the advantages and limitations of SDF, as well as appropriate case collection and implementation of SDF in treatment protocol.

✚ **TABLE #8: Skin Cancer**

Presenter: *Jennifer DeFazio, MD; Board Certified Dermatologist; Memorial Sloan Kettering Cancer Center*

She will discuss the features of the most common types of skin cancer. She will also review sun protection.

✚ **TABLE #9: Overview of Dental Sleep Apnea**

Presenter: *Kathleen Agoglia, DDS; Board Cert. Dental Anesthesiologist; GPR Director NYU Winthrop Hosp.*

Obstructive sleep apnea induced biological changes can be shown to increase the risk for hypertension, pulmonary vascular disease, heart disease, cardiac arrhythmias and cerebrovascular accidents. The role of the dentist will be discussed in treating obstructive sleep apnea.

✚ **TABLE #10: What's New in Medical Spa Treatment?**

Presenter: *Lynn Pierri, DDS; Board Certified OMFS; Licensed Esthetician; Private Practice, Hauppauge*

Aesthetics is a multi-billion dollar industry incorporating both surgical and nonsurgical techniques. How can you incorporate aesthetics into your dental practice?
