TAX TIPS FOR DENTISTS by **Stuart A. Sinclair, CPA**

There is an important change for 2021 federal personal tax returns regarding the taxation of unemployment benefits. They are fully taxable for 2021. In 2020 there was a \$10,200 per person exclusion on the federal. NY State fully taxes it for both years.

Greetings Dear Colleagues,

By the time you read this Presidents address, we will be more than three months into the year. As was stated during the Installation zoom back in January, the year would undoubtedly seem like a blur. So far, it hasn't disappointed. Because of the anticipated fast pace of the 2022 year, goals for the Suffolk County Dental Society were clearly delineated and defined at the beginning of the new year. I can proudly say

that the leadership within the society has worked hard to this point to make these 2022 goals a reality.

I'll briefly discuss five goals we are making progress on.

1.) As many of you may know by now, Dr. Paul Leary is a candidate to be the next President-elect of the ADA. I can think of no other better advocate for our society and profession than Paul. When I graduated my orthodontic residency in 2004 and came to practice in Smithtown, I had the pleasure of meeting Paul for the first time. Because I was new to town, I decided I would invite Paul to have lunch in hopes of recruiting referrals. After spending thirty minutes with Paul, it was apparent that I had been duped (in a good way). Dr. Leary was in fact recruiting me to join the society. True story. This speaks to Paul's passion for the society and organized dentistry. Paul has always taken care of our society and now it's time to return the favor. A number of our board members are working vigorously as a part of his campaign team to make sure he is your next ADA President-elect in the fall. Please donate to his campaign if you have not done so.

2.) In a fiscal and responsible way, the society must do everything it can to try and save the Greater Long Island Dental Meeting (GLIDM). Due to Covid-19, we have not had a meeting in two years. This inactivity has presented real challenges to having a meeting in 2022 and beyond. However, I'm excited to announce there will be a meeting this April 12-13th. Fran McHugh, meeting director, and the GLIDM board chaired by Dr. Jonke have worked extremely hard to bring Long Island a first class meeting this year. I implore you all to attend and bring your colleagues and staff. A Long Island meeting is a great member benefit and we need to try to preserve it.

3.) As of this writing, public mask mandates have been rescinded but remain in play for our practices. This is a reminder of the Covid waters we still navigate both as dental professionals and as members of our prospective communities. It has been my priority to insure our society gets the latest accurate info pertaining to Covid and its practice effects to our members in a timely fashion. It is comforting to know that we are well represented at the state level by our own Drs. Keven Henner and Guenter Jonke. They are NYSDA president and NYSDA Trustee respectively. Because of their presence, we'll be the first to know of changes state and locally.

4.) The membership and new dentist committees have been diligent in their efforts to grow our society. Drs. Claudia Mahon-Vazquez and Lauren Heisinger along with Bill Panzarino and Carol Deerwester are to be commended for the job in maintaining our membership in 2021. We were the only component in the state with net positive numbers.

This year there will be implementation of member incentive programs and events to attract potential new doctors to join our society.

5.) Lastly, with Black History month passing, I would be remiss if I didn't speak about the changing landscape of diversity and inclusion within our society. More than 16 years ago both Dr. Paul Markowitz and team Vazquez invited me to join the dental board and get involved with the newly minted Diversity Committee at the time. That's how I got started in organized dentistry. Although it feels like an eternity ago, I could not be more proud of our leadership and organization than I am today. I'm ecstatic that Dr. Kevin Henner has made diversity and inclusion one of his many priorities this year at NYSDA. He has appointed our own Dr. Ivan Vasquez to head his D and I task force which I too am a part of. From its inception, the task force has been hard at work.

For example, to commemorate Black History month, the task force held a panel discussion honoring the contributions of Black Americans in Dentistry. This event has been regarded nationally as a huge success. What makes it more gratifying is that our leadership at SCDS was largely responsible for this success. Events like this are positive first steps to positively effecting change. I believe we'd all agree that improving diversity within our society includes but is not limited to bringing more people of color into the fold. However, it's more about the diversity of ideas and meaningful dialogue that comes with bringing more people to the table than anything else that matters. In the end we as dentists regardless of creed, color or religion all want similar things from our profession. Job security, good compensation, opportunity to showcase our talents, and work safety. These things are color blind. I am proud that SCDS has taken a lead in trying to improve diversity and inclusion in our profession.

In the immortal words of Yogi Berra, "It's getting late early." However, let me reiterate that our leaders and support staff are working hard to achieve our shared goals. You can be confident that our dental society continues to shine and is headed for greatness because of you the members. Join a committee, invite a colleague to become a member, and come for fellowship at GLIDM. We all have a part to play.

Thank you and God Bless the SCDS

Craig E. Smith, DMD, SCDS President

He will be missed by so many!

I was honored to be asked to write this tribute about my long-time friend and colleague

Dr. Howard Schneider, despite the great sadness associated with his passing. Having known him for over 30 years, I know how special he was, personally and professionally. Howard had four passions in his life: his family, his pediatric dental practice, the community and the dental society. Well, maybe there was a fifth... Star Trek.

Howard was an important and active member of the Suffolk County Dental Society for 32 years. Before he became ill, he planned to become our future president, holding the position of secretary at the time. He held many other positions prior to this. He was a Huntington town delegate for many years, served on its Board of Directors and was a member of the planning board for the Greater Long Island Dental Meeting. However, the position he was most proud of was co-chairing the "Give Kids a Smile" Committee and the yearly event that provided donated dental care to underserved children.

Howard was an active member of the Huntington community and his temple. He served many roles at Temple Beth El including president of the TBE men's club, vice president of operations, a member of project HOPE (Helping Other People Eat) and ultimately temple president. He was very involved in the South Huntington school district as a member and officer of the Special Ed PTA. Recently, he had been president of another local organization dedicated to community service, "Dentists for a Better Huntington." One of his greatest joys was performing puppet shows throughout the community promoting dental health.

I was very fortunate to have the honor to work closely with him for many years professionally. Howard was the consummate pediatric dentist. He was fun and could be so silly with his patients. They loved him. He had a great love for treating children. I was particularly impressed with his skill in managing special

needs patients. His skill and ethics in his private practice were exceptional.

Howard is survived by his wife Miriam and their two sons, Evan and Jordan. He adored them and always talked about them with great pride. My wife and I attended Howard and Mimi's wedding and were privileged to watch as their relationship and family grew. The boys have grown to be fine young men, inheriting many of Howard's best qualities.

Howard was a special person who touched many lives with his hard work and optimistic attitude as he took on his many roles in the community where he worked and lived. I will always remember his big smile and how much he enjoyed friendly conversations. I believe many others felt the same way as hundreds of people attended his memorial service in person and via live stream. His death leaves a void that his family, friends, colleagues and the community will have difficulty filling. You will be greatly missed my friend.

You are members!

You are members, you pay your dues, maybe even better, you donate to ADPAC and EDPAC (the political action committees that advocate strongly on behalf of the public's oral health and the profession you care for so deeply). That being the case, THANK YOU! You are supporting your

profession, but are you getting what you need back from it, and are you advocating and defending the profession as best you can? How engaged are you at your local level? Each year we solicit membership to [join our Board of Directors](#) (the deadline is September 8 for nominations). It's your chance to have an even more direct influence on the profession and a route many find truly rewarding. Do you advocate for membership to further strengthen the profession? I can't think of a more persuasive way to recruit non-members than to have a member engage them directly, [thus our \\$200 promotion through May 31, 2022](#). Do you

refer patients to a non-member, can you think of a better time to have the conversation with them?

I'm not talking about building a cult, I am talking about building a stronger community of dentists interested in the betterment of public oral health and the profession of Dentistry. Want to feel good, join us for our [Give Kids a Smile](#) event on April 30th and see the community in action!

Please send any comments or questions to Contact@SuffolkDental.Org or call us at 631-232-1400. Bill Panzarino - Executive Director, SCDS

We hope to see you June 9-12, 2022

Every thirteen years, the Suffolk County Dental Society gets the opportunity to have one of our own members serve as President of the New York State Dental Association. I assume that most of you are aware that our own, Dr. Kevin Henner, has the privilege of serving in that capacity this year. In addition, the Suffolk County Dental Society will be hosting the 2022 NYSDA House of Delegates annual meeting. In addition to the political meetings there are many wonderful social activities which occur during the annual meeting.

Dr. Henner and the SCDS Board of Directors have decided to host the 2022 meeting in Saratoga Springs. This decision was made to highlight the fiduciary responsibility of our leaders. The costs of hotels, food and travel expenses are all less in central New York than they would be here in Suffolk County.

We would like to invite and strongly recommend that all SCDS dentists consider traveling to Saratoga to celebrate Dr. Henner's successful term as President of NYSDA representing Suffolk County.

The schedule of the social activities will be as follows: [Thursday, June 9 - Golf Outing](#) at the prestigious Saratoga National Country Club including lunch and dinner; [Friday, June 10](#) - welcome reception/cocktail party to network and meet other dentists from across NYS; [Saturday, June 11](#) - formal dinner dance with live band in a unique catering hall. In addition, there will be other social events involving significant others which will be announced as the dates get closer. In addition, there are many excellent bars and restaurants in Saratoga Springs.

We look forward to celebrating together with as many SCDS members as possible. We hope you can make it!

Spring 2022

The Suffolk County Dental Society welcomes our newest members to Suffolk. As new members, we hope you will join us at our upcoming lectures and events. The newly

designed website has all the information you need: Who's Who in the Society, Classifieds, Continuing Education Courses, as well as Professional Resources.

One of the Benefits of your membership is the **ADA Find-A-Dentist Program**. By completing and updating your profile regularly, patients will learn about you, your practice and your specialty. You can include all of the locations you work at, insurance programs you participate with, and languages you speak. The more complete your profile is, the higher you will be in the search results among members in your area. Adding your photo or your practice logo also increases your visibility. Go to <https://ebusiness.ada.org/Myada/updateprofile.aspx> for more helpful information and to complete your profile.

Regardless of where you are in your career, there are resources for you. Our career paths vary and may change over the course of our lives. There are programs and options designed to help at every stage, either starting out in your career or getting ready for retirement. The ADA provides resources for **new members** such as: <https://www.ada.org/resources/careers/starting-a-dental-practice> or for **retiring members**, <https://www.ada.org/resources/careers/joining-and-leaving-the-dental-practice>. If you have questions, you can always call your local dental society or a NYSDA Member Concierge.

In the most recent New York State Dental Journal there was a tribute to the Newest **Life Members** around the state. These are members who have attained 30 years of consecutive membership or 40 years of nonconsecutive membership. We are grateful to the 125 members of Suffolk County who have contributed to their profession in so many ways. Please check your journal (also available on -line) to view the list of dedicated dentists from Suffolk County.

Our Society is dedicated to Diversity, Equity and Inclusion. In honor of **Black History Month**, we shared NYSDA's talk on "The Black Experience in Dentistry, Honoring the Past and Changing the future." We are grateful to the amazing speakers and to our own Craig Smith, the first African-American President of the Suffolk County Dental

Society. These trailblazers continue to make inroads for African-Americans and all dentists, promoting equality regardless of our backgrounds.

In addition, March is **Women's History Month**. We are very fortunate to have had four women presidents of the Suffolk County Dental Society: Tracy Stewart-Flamenbaum, Maria Maranga, Patricia Hanlon and yours truly, as well as a female President-Elect, Radha Sachdeva-Munk and a New Dentist Committee chairperson, Lauren Heisinger. We hope to continue engaging more doctors from all backgrounds, so please contact us to become more actively involved in the direction of your Society and Profession.

Member Get-A Member Promotion: a \$200 Value

We are offering a 2022 promotion to all of our members.

When you recommend a colleague to join the society for 2022 you will receive a \$200 check, as a thank you, once they have joined and completed their membership dues payment*

*This offer is valid for NEW full dues paying members only. Please contact the dental society with any questions regarding the details of this promotion! Details can be found on the website home page (SuffolkDental.Org)

Diversity, Equity and Inclusion

On Wednesday February 23, 2022, the newly formed NYSDA Diversity, Equity and Inclusion Task Force hosted a Zoom Panel Event titled “The Black Experience in

Dentistry: Honoring the Past and Changing the Future.” The NYSDA D, E & I Task Force was created by our NYSDA President Dr. Kevin Henner following a resolution that was adopted at the June 2021 House of Delegates to high-light February as Black History Month and showcase African-American member dentists that have made a significant contribution to our profession. This resolution was introduced by Dr. Fabiola Milord, Past President of the Nassau County Dental Society.

The panel was moderated by Dr. Laila Hishaw, founder of the National non-profit Diversity in Dentistry Mentorships, Inc. which encourages Blacks and other students to consider careers in dentistry by offering mentoring from middle to dental school.

The discussion covered a short history of black trailblazers in dentistry and organized dentistry, the obstacles faced for entry into dentistry, and how mentorship can make a difference. They also discussed how racism affects the dental school experience and the input it had on the members of the panel. Panelists included,

among others, Dr. Raymond Gist, first African-American ADA President in 2010-2011, Dr. Darwin K. Hayes, Dental Director for the State of New Jersey, Dr. Sharel S. Sly, founder of Sistahs in Dentistry, a national organization for black women dentists, and Dr. Mark Bronson, Second Vice President of the ADA.

The program had an excellent acceptance nationwide with over 225 attendees including ADA members, non-member dentists, dental residents, students and auxiliaries. The program is available on NYSDA’s Youtube page at <https://youtu.be/2fBaJQ8aZvY>.

The Task Force is comprised of members from most of the components around the state, members of the NYSDA Board and staff. The members themselves represent ethnic, minority, and gender diversity. We will continue to provide new programs to bring awareness to the various diverse groups within dentistry.

Respectfully,

Ivan A. Vazquez, DDS

Chairman, Diversity, Equity & Inclusion Task Force

NEW DENTIST COMMITTEE

An Update From Your New Dentist Committee

We have some exciting events planned for the next few months, and a few still in the works. We hope you’ll get involved and join us. First up is our virtual CE event with

Ethics and Inclusion

Justice, our fourth Principle in our Principle of Ethics and Code of Professional Conduct, states we "may exercise reasonable discretion in selecting patients for their practices, dentists shall not refuse to accept patients into their practice or deny dental service to patients because of the patient's race, creed, color, gender, sexual orientation or

gender identity or national origin. Our profession has always been based on the commitment to high ethical standards. There is an old saying that "*you only get one chance to make a first impression*". It is our intent to make everyone feel comfortable and inclusive in our offices. However, are we making the same efforts with LGBTQIA+ patients?

The definition of the LGBTQIA+ acronym is Lesbian, Gay, Bisexual, Transgender, Queer, Intersex, Asexual and the plus sign represents members of the community who identify with a sexual orientation or gender identity that is not included within rest of the acronym. LGBTQIA+ individuals come from all walks of life. Many LGBTQIA+ have experienced discrimination, rejection and untoward reactions due to their gender identity or sexual orientation. But as we know dental issues, caries, periodontal issues, impacted third molars all carry no prejudice. LGBTQIA+ patients are acutely aware of subtle signs in our offices indicating whether they will be welcomed or not. We should think about, as we begin with any patient visit, are our medical history forms current? Do we have options for gender identity? For many of us, it has been a long time since we updated our forms and adding gender identity inclusive language on our forms is an important step to show all patients that they are welcome and accepted in our offices.

Second, which pronoun does your patient use? This also should be an option on your medical history form and when answered, will avoid any awkward moments with your patient among you and your

staff. The inclusiveness of gender, sexuality and relationships on the forms will go a long way to provide a complete and accurate medical history. Respectful communication begins with your receptionist. Create a standard policy when welcoming patients. Have them ask the patient if the name on the file is the name he/she prefers to use. Every office should examine and review their current policies and procedures regarding patient's pronouns. The more prepared you and your staff are will go a long way to formulate an excellent initial patient experience.

Currently, many medical forms do not ask about sexual orientation. Adding this question will send a clear understanding and respect that you acknowledge their individuality and that your office is a safe space.

Gender neutral bathrooms for larger practices in is another way to instill a-welcoming atmosphere for transgender and non-binary patients.

By taking care of these simple steps, all of us can provide the best level of health for all of our patients, regardless of gender identity or sexual orientation. The National LGBT Health Education Center has additional information (<https://www.lgbtqiahealtheducation.org>)

Stony Brook School of Dental Medicine

Your member colleague Dr. Jay Orlikoff shared this article from the Long Island Press dated Thursday May 29, 1969. We thought you may well enjoy this piece.

Ground Broken at State U. For Mini-Medical Center

Ground was broken yesterday for a "mini-medical center" at the State University at Stony Brook—a temporary "staging area" for a massive University Health Sciences Center to be completed in the early 1970s.

The 114,000-square-foot building will permit preliminary academic programs to begin in September, 1970.

The overall center eventually will include schools of medicine, dentistry, nursing, allied health professions and social work, and contain a 400-bed university hospital and a 500-bed Veterans Administration hospital.

It will take a highly "innovative" approach to health sciences, education officials say.

Taking part in the groundbreaking yesterday were university president John S. Toll, Dr. Edmund D. Pellegrino, vice presi-

dent for health sciences and dean of the School of Medicine, Dr. Howard Oaks, dean of the School of Dentistry, and Steven Schonfeld, president of the campus Pre-Medical Society.

{Pictured above — Breaking ground for the medical and dental schools in 1969. From Left to Right: Howard Oaks, first dean of the dental school; John Toll, President of the University; Edmund Pellegrino, first dean of the medical school and first VP for Health Sciences; and Steven Schonfeld, president of the premed/premed society} (Note Dr. Schonfeld also assisted in bringing this article to us).
